## ABOUT ME

I'm a fourth-year IT student at Alhussain ben Talal University, specializing in AI, data science, and full-stack MERN development. I leverage AI and data science to analyze data and create intelligent solutions while building robust web applications with seamless user experiences.

---

## EDUCATION

Bachelor of AI & data science AL Hussain Bin Talal University  
(2021-2025)

---

## SKILLS

Java Script	Git & Git Hub	Machine learning
React.js	PostgreSQL	VITE
Type Script	FAST API	NLP
Node Js	TensorFlow	pandas
Express js	Socket IO	numpy
MongoDB	CNN , RNN	matplotlib
NEST JS	NEXT JS	
Tailwind	UE 5	
NO SQL		

---

## EXPERIENCE

**Pioneer Academy**  
**Markiting department internship**

**July 2023 - September 2023**

At Pioneer Academy, I focused on Social Media Marketing, digital content creation, community management, and advertising. I honed skills in strategy, content creation, and learned about the advertising industry's dynamics.

**Estarta solutions**  
**AI & Data science internship**

**July 2024 - September 2024**

Developed machine learning applications, including a face recognition system, and auto-complete system, leveraging techniques such as CNNs, and NLP. Built user-friendly front ends using React to enhance user experience and interaction.
